Getting Started

You may start by selecting flashcards or matching activities from the home screen.

Or

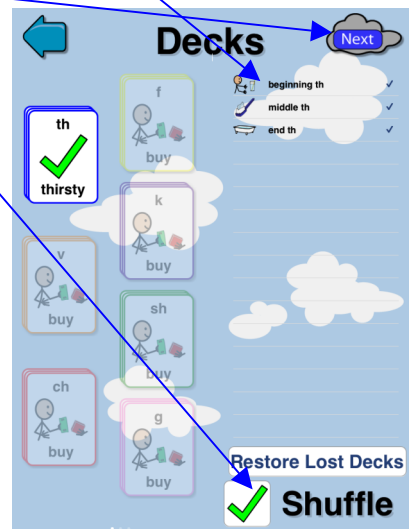

By selecting the folder and creating a student list.

Selecting flashcards

1. After selecting the [flashcard](#) option, select the targeted [phoneme](#) you would like to practice from the list that appears.

2. You may then select if you would like to work on [beginning](#), [middle](#) or [ending](#) sound.
3. Check the [shuffle](#) option, at the bottom of the screen, if you would like all 3 options in different orders or uncheck the shuffle option to work on each position 1 at a time.
4. Click [next](#) at the top right corner to proceed.

ArtikPix Tutorial

5. Now you are ready to practice! The targeted word will be said.
6. Use the **microphone** to record the learner repeating the targeted word. Select the **play** button to hear it again.
7. Touch the **red circle arrow** to hear the targeted phoneme in a sentence.
8. Select the **smiley face** if the learner achieved the sound and the **sad face** if the learner did not produce the sound correctly.
9. Swipe the screen to move to the next word or select **done** in the top right corner.

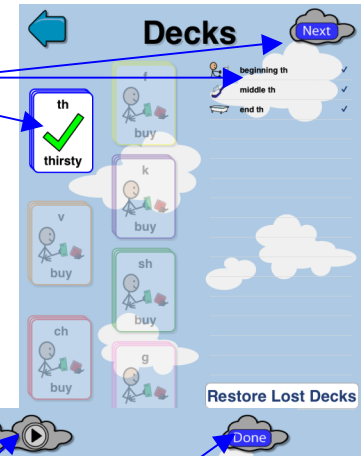

10. When you select the done icon, it will take you to a score page.
11. Select the **folder** at the bottom of the page and select a learner to add their score into their profile.
12. The **paper** icon allows you to choose where you would like to copy your learners score into (**clipboard, google spreadsheet, email or email as CSV**).
13. Choose the **house** icon to get back to the main menu.

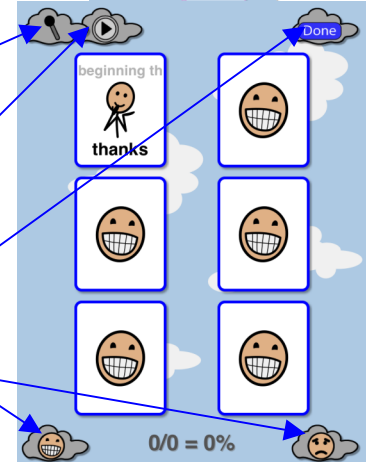

Selecting Matching

1. After selecting the **matching** option, select the targeted **phoneme** you would like to practice from the list that appears.
2. You may then select if you would like to work on **beginning, middle or ending** sound.
3. Click **next** at the top right corner to proceed.

4. Select your skill level.
5. Matching option is the same as playing the memory game. Select a card.
6. Use the **microphone** to record the learner repeating the targeted word. Select the **play button** to hear it again.
7. Select the **smiley face** if the learner achieved the sound and the **sad face** if the learner did not produce the sound correctly.
8. Select **done** in the top right corner.
9. When you select the done icon, it will take you back to the score page as in the flashcard instructions.

Main Menu (User Folder and Settings)

1. To adjust app settings, select the **preference** icon on the lower right corner.
2. To create a learner profile, select the **folder** icon on the lower left corner.

Creating User Profile

1. Select the **plus sign** to name a folder.
2. Select a **folder** to view learners scores.
